

# Table of contents

<b>THEORETICAL ELEMENTS</b>			
<b>OF FUNCTIONAL BANDAGING</b> . . . . .	1	Crossing stabilization and reinforcement of base bandaging	27
Basic techniques . . . . .	2	Stabilization and reinforcement of tape base bandaging . . . . .	29
Indications, precautions, contraindications . . . . .	4	Unloading, retention, and guidance of movement . . .	31
Materials . . . . .	6	Limitation of outward rotation and abduction . . . . .	35
Pre-tape . . . . .	7	Stabilization and limitation of outward rotation . . . . .	37
Non-adhesive elastic bandage .	7	Elbow joint. . . . .	46
Adhesive elastic bandage . . . . .	7	Unloading and limitation of extension . . . . .	47
Cohesive fixation bandage. . . . .	7	Stabilization and limitation of extension . . . . .	51
High-resistance cohesive bandage	8	Stabilization, limitation of extension and supination . . .	55
Inelastic adhesive tape . . . . .	8	Muscular and tendinous unloading . . . . .	57
Inelastic cohesive tape . . . . .	9	Supinator muscle . . . . .	60
Foam rubber bandage . . . . .	9	Muscular unloading . . . . .	61
Hydrating cream . . . . .	9	Radiocarpal joint . . . . .	64
Razor blade . . . . .	9	Base bandaging . . . . .	65
Lister scissors . . . . .	10	Limitation of extension on base bandaging . . . . .	69
<b>UPPER LIMB</b> . . . . .	11	Support and limitation of extension . . . . .	71
Acromioclavicular joint . . . . .	12	Limitation of flexion on base bandaging . . . . .	79
Stabilization for “piano key” injury . . . . .	13	Limitation of flexion	
Glenohumeral joint . . . . .	14		
Base bandaging with elastic adhesive bandage . . . . .	15		
Base bandaging with elastic adhesive tape . . . . .	19		
Tape-based stabilization and reinforcement of base bandaging . . . . .	23		

on tape base bandaging . . . . .	81	Base bandaging with cohesive bandage. . . . .	145
Limitation of flexion . . . . .	85	Stabilization of the collateral ligament on the base bandaging	147
Metacarpophalangeal joints . . . . .	88	Unloading and stabilization with reinforcement	
Unloading and protection of the thumb . . . . .	89	of the collateral ligaments . . . . .	149
Stabilization of the thumb . . . . .	93	Limitation of extension, support for collateral ligaments . . . . .	153
Limitation and stabilization of abduction and extension of the thumb . . . . .	97	Support of the anterior cruciate ligament. . . . .	159
Stabilization of the fingers . . . . .	109	Limitation of extension . . . . .	161
Limitation of the extension and flexion of the fingers . . . . .	111	Recentring of the patella . . . . .	163
Proximal interphalangeal joints . . . . .	112	Unloading of the patellar tendon with a pad. . . . .	165
Lateral stabilization . . . . .	113	Unloading of the patellar tendon with inelastic adhesive tape. . . . .	167
Stabilization and limitation of flexion . . . . .	115	Unloading of the patellar tendon with elastic adhesive tape . . . . .	169
<b>LOWER LIMB . . . . .</b>	<b>117</b>	Support of the patellar tendon . . . . .	171
Medial muscles of the thigh . . . . .	118	Posterior muscles of the lower leg. . . . .	172
Unloading and limitation of abduction, extension, and outward rotation . . . . .	119	Muscular unloading via compressive bandaging . . . . .	173
Quadriceps femoris . . . . .	120	Tibiotalar joint . . . . .	178
Muscular unloading via compressive bandaging . . . . .	121	Base bandaging . . . . .	179
Rectus femoris . . . . .	124	Retention base bandaging . . . . .	183
Unloading, support, and guidance of movement . . . . .	125	Base bandaging with cohesive elastic bandage . . . . .	185
Posterior muscles of the thigh . . . . .	128	Fast bandaging with stabilization of the hindfoot . . . . .	187
Muscular unloading via compressive bandaging . . . . .	129	Stabilization of the hindfoot and support at the lateral space . . . . .	191
Unloading, support, and guidance of movement . . . . .	135	Support via inelastic bandage. . . . .	199
Posterior muscles and joint of the knee . . . . .	138	Stabilization of the hindfoot. . . . .	205
Muscular unloading with bandage in X-shape, taking on of the satellite joint. . . . .	139	Stabilization of the hindfoot reinforced with tape . . . . .	207
Knee joint . . . . .	140	Retention of the lateral space. . . . .	209
Base bandaging . . . . .	141		

Stabilization of the lateral space . . . . .	211	Unloading and support with elastic bandage . . . . .	251
Stabilization of the lateral space with reinforcement. . . . .	215	Unloading, support, and stabilization with inelastic bandage . . . . .	255
Limitation of inversion and eversion. . . . .	223	Plantar aponeurosis . . . . .	258
Unloading and limitation of plantar flexion . . . . .	229	Unloading with elastic adhesive tape . . . . .	259
Achilles tendon . . . . .	230	Unloading with reinforcement . . . . .	261
Preventative bandaging . . . . .	231	Support of the foot and the plantar arch . . . . .	267
Unloading with X-shaped bandage, limitation of dorsal flexion . . . . .	233	Metatarsophalangeal joints . . . . .	270
Musculotendinous unloading, limitation of dorsal flexion . . . . .	235	Unloading with pad . . . . .	271
Unloading bandaging . . . . .	237	Stabilization of the joint of the great toe . . . . .	273
Unloading with stabilization of the hindfoot . . . . .	239	Unloading of the metatarsophalangeal joint of the great toe . . . . .	277
Musculotendinous unloading with stabilization of the hindfoot . . . . .	243	Support of the great toe, limitation of hyperextension and abduction . . . . .	283
